

TRUST THE LEADER

ADD SUSTAINABILITY

WITH LABELS & AUTOMATION

Cut labor costs.
Fewer workers
and less time
needed.

Save time with
automated printing
and application
of your labels.

One team every
step of the way.
Installation.
Set-up. Training.
Service. Support.

Decrease overall
cost in material
waste, labor,
and more.

Reduce inventory.
Minimize tag
obsolescence
and container
inventory.

THE LATEST SOLUTIONS:

THE LABEL GATOR® LAGIT™ *

- Replaces the hanging & locking tags.
- Can be applied automatically, unlike tags.
- Only 40% of the thickness of current tags.
- 20% of the product is removed as the plant stake, the rest stays on the pot & is recycled with the container.
- Reduces waste by allowing variable data to be printed directly on them.

* Patented product by Great Lakes Label, LLC

THE LABEL GATOR® 4-HEAD SYSTEM

- Label changeover with ZERO downtime.
- Reduces cost & labor by up to 10 people per line.
- Can add print heads to include variable data printing, which in turn lowers inventory & unused items.
- Decreases the amount of waste put into the environment by being label-compatible.
